Introduction

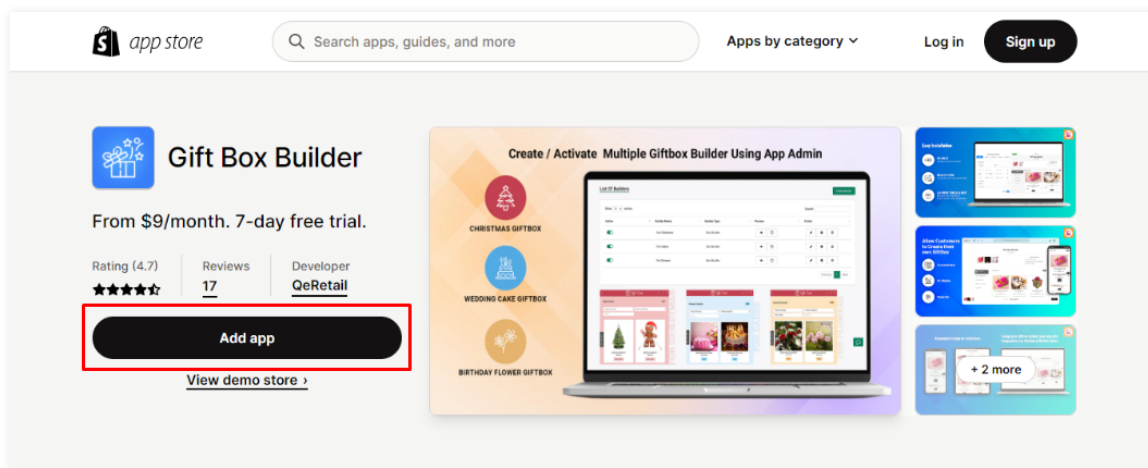

This tutorial guide will assist you in installing and setting up the Gift Box Builder app by QeApps, which is an excellent tool for boosting your Shopify store's revenue, enhancing customer loyalty, and providing a delightful gift-giving experience.

By enabling your customers to create personalized gift boxes with just a few clicks, this app will take your product bundling strategy to the next level. Moreover, there is no need for coding expertise as the integration process is hassle-free.

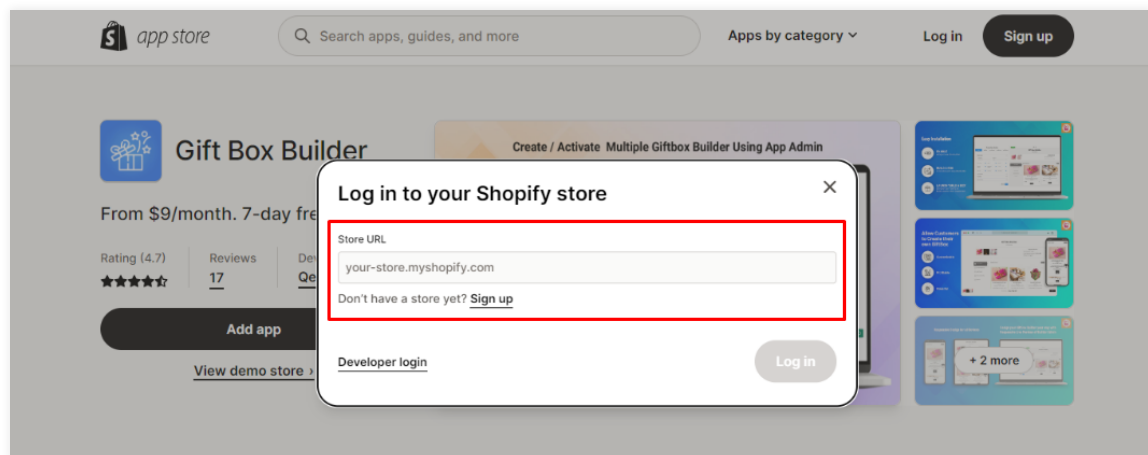

Qe Gift Box Builder Installation & Setup

Let's follow this step-by-step.

1. Go to the [Qe Gift Box Builder](#) on the Shopify App Store.
2. Go to the app page and click on the "Add app" button to install it.

3. Enter your store URL and follow the prompts to complete the installation process.

4. You will be redirected to the dashboard. On your dashboard, enable the app to display all the changes you make to your store.

The screenshot shows the Qeretail dashboard interface. At the top left is the Qeretail logo with the tagline "Your whole handyman". At the top right is the "Gift Box Builder" logo. A navigation sidebar on the left contains "Dashboard", "Builder List", and "Store Orders". The main content area features a "Welcome back," message and a "Happy TUESDAY from the Qeretail team." greeting. Below this are four summary cards: "73 Builder Clicked", "1971 Items Viewed", "61 Items sold", and "\$138,096.61 Total earnings". A section titled "Builder app setting is easy just following steps to set up and display builder on your store." contains a three-step process: 1. Create Builder, 2. Review Us, and 3. Setup code. A "Create Builder" button is prominently displayed. A "Current Week" button is located at the bottom left of the settings section, and a chat icon is at the bottom right. A red box highlights a "Disable" and "Enable" toggle switch in the top right corner, which is currently set to "Enable".

Create Your First Gift Box

1. Click on "Create Builder" to set up your first gift box.

2. Click on the Add button to add a gift box that you will be offering to your customers.

3. Add the Name of the Gift Box. For eg: occasional offering, birthday box or anniversary box and so on.

The screenshot shows the 'Add Build Box' form in the QeRetail system. The form is titled 'Add Build Box' and is located in the 'Gift Box Builder' section. The form contains several input fields: 'Box Name' (highlighted with a red box), 'Box Images' (with a 'Choose Files' button and 'No file chosen' text), 'Box Price' (with a '\$' symbol), 'Box Products Min Limit' (with a value of '1'), and 'Box Products Max Limit' (with a value of '1'). There is also a 'Box Description' field with a 'Content...' placeholder. At the bottom of the form, there are 'Cancel' and 'Save Box' buttons, and a chat icon on the right.

4. Add images of the real-life gift boxes and packaging you are offering to your customer in which the products will be delivered.

The screenshot shows the 'Add Build Box' form in the QeRetail system. The form is titled 'Add Build Box' and is located in the 'Gift Box Builder' section. The form contains several input fields: 'Box Name', 'Box Images' (highlighted with a red box, with a 'Choose Files' button and 'No file chosen' text), 'Box Price' (with a '\$' symbol), 'Box Products Min Limit' (with a value of '1'), and 'Box Products Max Limit' (with a value of '1'). There is also a 'Box Description' field with a 'Content...' placeholder. At the bottom of the form, there are 'Cancel' and 'Save Box' buttons, and a chat icon on the right.

5. Set the
 - a. price of the gift box,
 - b. update the minimum and
 - c. maximum number of products your customer can add to the gift box.

Box Name:

Box Images: Choose Files | No file chosen

Box Price: \$

Box Products Min Limit: 1

Box Products Max Limit: 1

Box Description: Content...

Cancel Save Box

7. Once all details are in place, click on the Save Box button to save your settings.

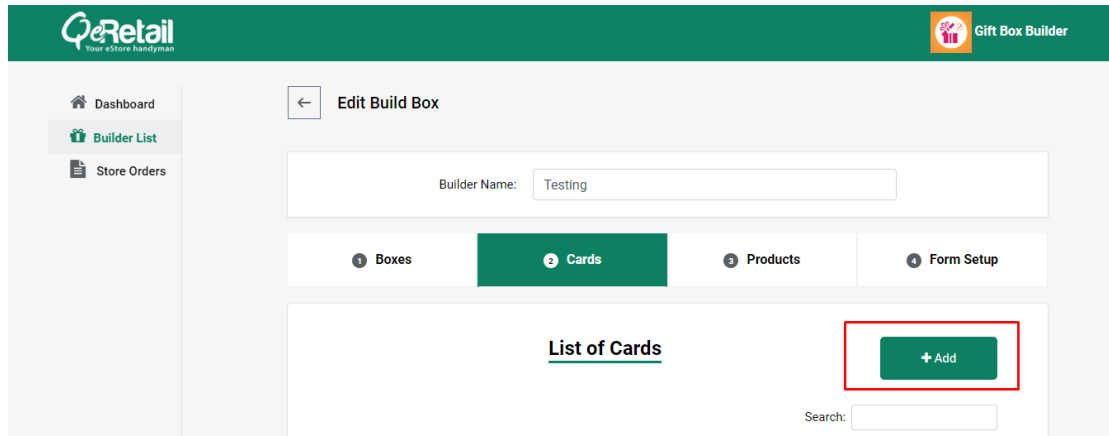

The screenshot shows the 'Add Build Box' form in the eRetail Gift Box Builder interface. The form is titled 'Add Build Box' and is located in the 'Gift Box Builder' section. The form contains the following fields and controls:

- Box Name:** A text input field.
- Box Images:** A file upload area with a 'Choose Files' button and the text 'No file chosen'.
- Box Price:** A text input field with a '\$' symbol.
- Box Products Min Limit:** A text input field with the value '1'.
- Box Products Max Limit:** A dropdown menu with the value '1'.
- Box Description:** A large text area with the placeholder text 'Content...'.

At the bottom of the form, there are two buttons: 'Cancel' (red) and 'Save Box' (green). The 'Save Box' button is highlighted with a red box. A green chat icon is visible in the bottom right corner of the form area.

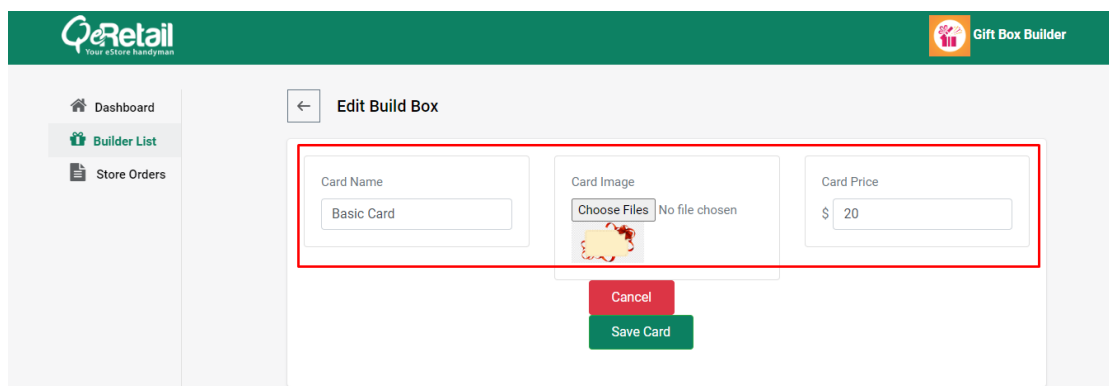

Setup the Message Card Offerings with Your Gift Box

1. The next is to offer your customers personalized cards to add to their gift boxes. Click on the Add button to add the cards you will be delivering along with the gift box..

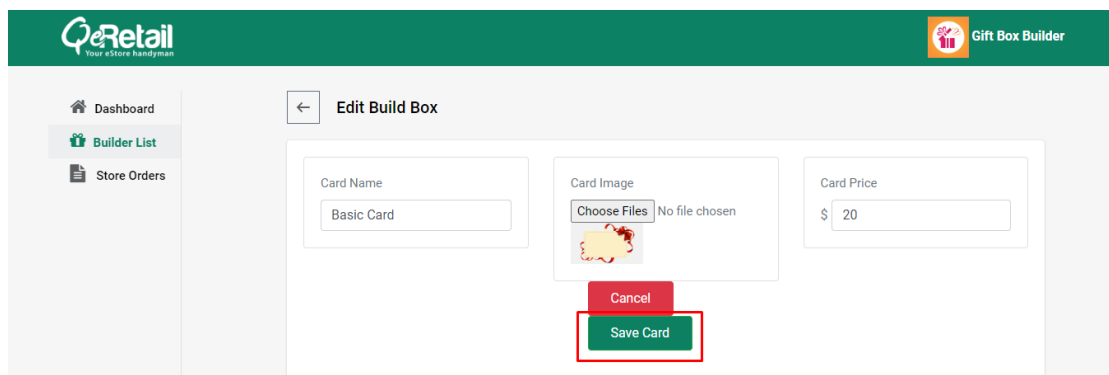

The screenshot shows the 'Edit Build Box' interface. At the top, there is a 'Builder Name' field with the value 'Testing'. Below this, there are four tabs: 'Boxes', 'Cards', 'Products', and 'Form Setup'. The 'Cards' tab is currently selected. In the center, there is a section titled 'List of Cards' with a search bar below it. A green '+ Add' button is highlighted with a red box.

2. Add the card name and the real-life image of the card that the receiver of the gift will receive. Also, mention the price of the card.

The screenshot shows the 'Add Card' form. It has three input fields: 'Card Name' with the value 'Basic Card', 'Card Image' with a 'Choose Files' button and 'No file chosen' text, and 'Card Price' with a '\$' symbol and the value '20'. Below the fields are two buttons: 'Cancel' and 'Save Card'.

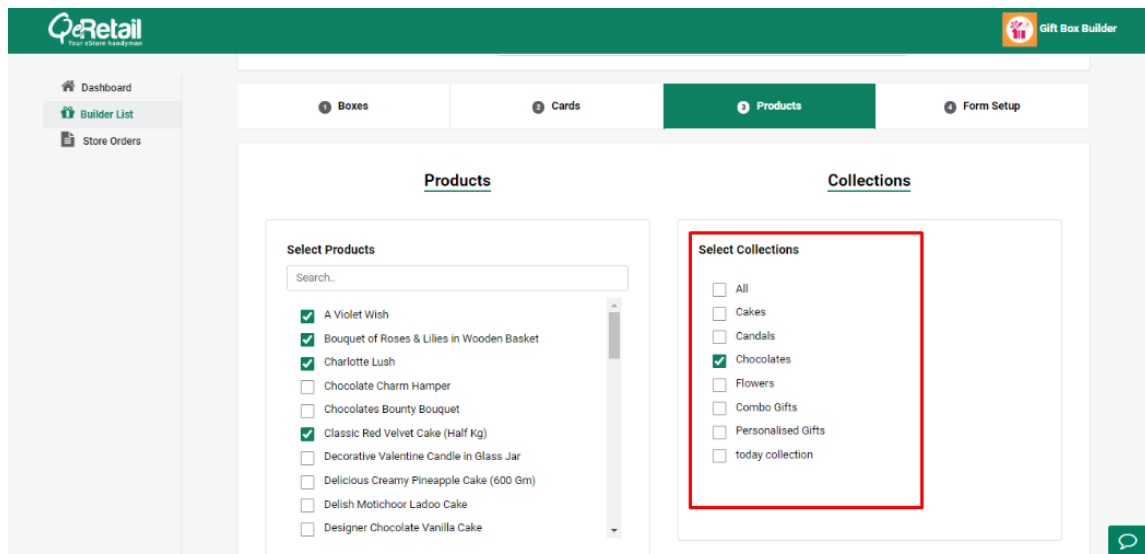

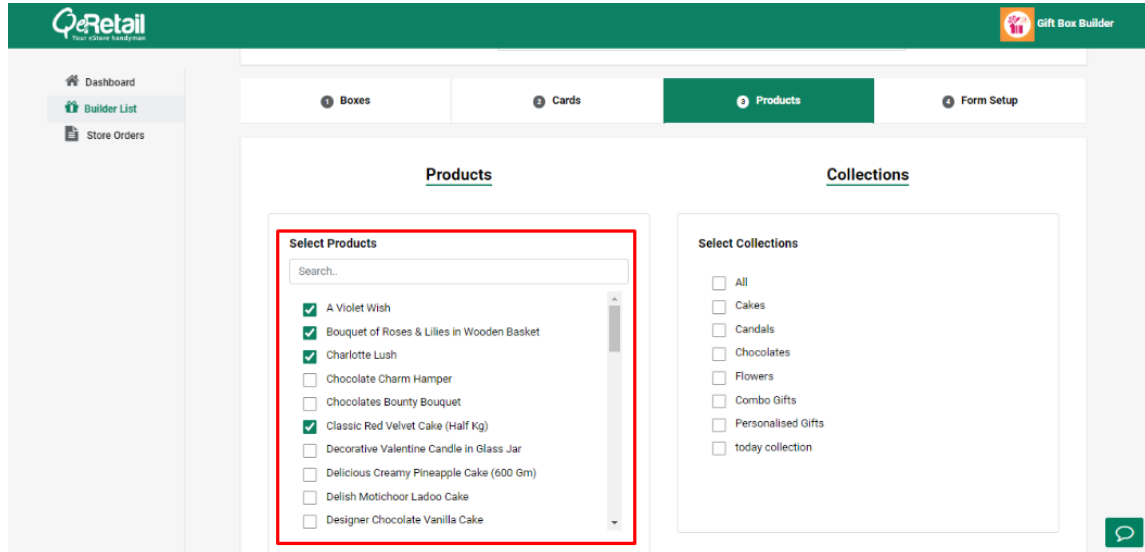

3. Click on Save to save your settings.

The screenshot shows the 'Add Card' form, identical to the previous one. The 'Save Card' button is highlighted with a red box.

Choose the Products Customer Can Add to the Gift Box

1. Select the products you want to display to your customers from which they can add products to the gift box.

Setup Form for Personalized Message Option

1. Next, set up the form section to let your customers enter the sender and receiver's details.

The screenshot shows the 'Form Setup' page in the QeRetail Gift Box Builder. A red box highlights the main configuration area. At the top, there is a toggle for 'Display Date of Occasion (Customer will be able to select date next 7 days from today)' which is currently turned on. Below this is a table with four columns: Field Name, Field Validation, Field Type, and Action.

Field Name	Field Validation	Field Type	Action
From Full Name	Require	Text	Remove Option
To Full Name	Require	Text	Remove Option
Gift Card Message	Require	Textarea	Remove Option
Email Address	Require	Email	Remove Option

Below the table is an 'Add Options' button. At the bottom of the form setup area is a 'Save' button, which is highlighted with a red box in the second screenshot.

2. Save your settings, and you're all set!

This screenshot is identical to the one above, showing the 'Form Setup' page. The only difference is that the 'Save' button at the bottom of the form setup area is now highlighted with a red box, indicating the final step of the setup process.

Congratulations, you've installed and set up the Gift Box Builder app by QeApps on your Shopify store!

Conclusion

By providing your customers with the ability to create customized gift boxes, add personalized messages, and select from a diverse range of products, you can differentiate your business from competitors and deliver exceptional value. We hope that this tutorial has successfully guided you through the installation and setup process for the Gift Box Builder app.
